Circular 33 / 16-17

Dear Parents,

Be Vigilant Against In Hand, Foot and Mouth disease and Chickenpox

Please be informed that there is one case of hand, foot and mouth disease, and Chickenpox in school respectively. Please pay close attention to your child's health condition. If your child was diagnosed with hand, foot and mouth disease or Chickenpox, please contact the class teacher immediately.

To prevent infectious disease, members of the public, should take heed of the following preventive measures:

- Maintain good air circulation;
- Wash hands before meals and after going to the toilet or handling diapers or other stool-soiled materials;
- Keep hands clean and wash hands properly, especially when they are dirtied by respiratory secretions, such as after sneezing;
- Cover the nose and mouth while sneezing or coughing and dispose of nasal and oral discharges properly;
- Clean children's toys and other objects thoroughly and frequently with diluted household bleach (by adding one part of household bleach containing 5.25 per cent sodium hypochlorite to 49 parts of water), followed by rinsing or wiping with clean water;
- Children who are ill should be kept out of school until their fever and rash have subsided and all the vesicles have dried and crusted;
- Avoid going to overcrowded places;
- Parents should maintain close communication with schools to let them know the latest situation of the sick children.

The public may visit the CHP's page on (www.chp.gov.hk) for more information.

Thank you for your attention and co-operation!

Ms. CHUI Sau-man
Headmistress
